Grand Canyon, AZ 86023

ISSUED:

Effective: February 12, 2004

LOS ANGELES ARTCC AND GRAND CANYON AIR TRAFFIC CONTROL TOWER  
LETTER TO AIRMEN NO. 03-1

SUBJECT: PRACTICE INSTRUMENT APPROACHES AT GRAND CANYON  
NATIONAL PARK AIRPORT

CANCELLATION: February 11, 2006.

1. In an effort to provide extended service to the users of Grand Canyon National Park Airport, Los Angeles ARTC Center will provide VFR aircraft requesting a practice approach, standard IFR separation 24 hours a day. Such requests will be approved, traffic permitting.
2. Los Angeles ARTCC currently provides approach control services for Grand Canyon National Park Airport on frequency 124.85/319.2 MHz.
3. Grand Canyon Air Traffic Control Tower: hours of operation are published in the Airport/Facility Directory. Tower frequency is 119.0 MHz.
