

High Alert Intersection

KPSP Palm Springs (California)

Where to find:

Tower: 119.70
 Ground: 118.25
 ATIS:

Taxiway 'C' is mistaken for a parallel runway to 13L/31R

The intersection of Taxiway 'B' and approach end of Runway 31R is directly adjacent to the east ramp. When Runway 13L/31R are in use, aircraft destined for Runway 13R originating from the east ramp typically travel on Taxiway 'B' and do a right turn on Taxiway 'C'. After receiving clearance to cross Runway 13L, aircraft have failed to turn right on Taxiway 'C' and encroached on to Runway 13R.

Taxiway 'B' is the main artery that connects the east and west parking areas. Aircraft and vehicles should use extreme caution when reading back and complying with all hold short/crossing instructions.

Taxiway 'C' is mistaken for a parallel runway to 13L/31R
